

I am passionate about creating experiences that make things make sense.

Work Experience

Teaching Assistant

January - April 2025
(4 month)

IAT 238 Foundations for Designing Interactions

Simon Fraser University

Provided one-on-one and in-class design critique and mentorship to second-year students in foundational interaction design course.

User Assistance + UX Designer

May 2023 - August 2024
(16 month)

SAP Vancouver

Led [UX research project](#) to gain understanding of current help documentation expectations and pain points to inform new guidelines.

Created and implemented [help-specific design system](#) and documentation for multimedia technical content production. Produced articles, animated and screencast videos, diagrams and graphics to exemplify guidelines.

Created implementation specs for documentation-related UX-topics.

Area Enhancement + Graphic Designer

May - August 2022
(4 month)

Downtown Surrey Business Improvement Association

Designed promotional assets and print reports for stakeholders.

Worked with small businesses and developers to create facade improvement plans including pricing and logistics.

Ceramist + Visual Designer

2019 - present
(6 year)

[Dumbcute](#) Etsy shop

Produce original ceramic works and [manage brand identity](#).

Provide high level of quality and customer service resulting in over 600 sales and 120 5-star reviews.

Education

BSc. Interactive Arts + Technology and Psychology

2020 - 2025

3.96 CGPA

Spring 2025
Fall 2024
Spring 2023
Fall 2022
Spring 2022
Fall 2021

President's Honour Roll

(term GPA >= 4.0)

Spring 2025
Spring 2023
Spring 2022

Projects

[MyInterface](#) Chrome Extension

April 2025

IAT 460 Computational Creativity

Simon Fraser University

Developed Chrome extension with Javascript and OpenAI API that interprets user prompt and generates CSS snippet to change website styling for accessibility or personal preference use cases.

Star Alliance UX Strategy

August 2025

IAT 438 User Experience Design

Simon Fraser University

Designed strategy for reimagined Star Alliance app experience based on primary and secondary research conducted to understand customer experience gaps.

Created compelling weekly presentations and final animated walkthrough pitching design intervention.

Skills

I am skilled in **user experience/interface, instructional, visual, and content design.**

I strive to see the **big picture** and the deeper meanings.

I can **clearly articulate my ideas** through writing and speech.

I am a **self-starter**, problem-solver, and am excited to take initiative where I see opportunities.

I am fluent using Figma, Adobe CC (Illustrator, Photoshop, AfterEffects, Premiere Pro), HTML, CSS, Java, JavaScript, PHP, SQL, Python, Git, Processing, Arduino, Protopie, Microsoft Suite, Tableau, Observable, SAP Analytics Cloud, and have experience with illustration and photography.

Interests

[Music production](#), psychology, [ceramics](#), reading/listening to audiobooks always, visual art, woodworking, making up recipes, fitness, making websites for fun, using design to make things make sense.
